2026년 제36차 대한족부족관절학회 추계학술대회

2026 The 36th Annual Congress of the Korean Foot and Ankle Society

Date

26~27 November 2026 (Thu.~Fri.)

Location

1F Convention Center Walker Hall,
WALKERHILL HOTEL, Seoul, Korea

대한족부족관절학회
Korean Foot & Ankle Society

INVITATION

Dear Colleagues,

It is my pleasure to welcome you to the 2026 Korean Foot & Ankle Society Annual Autumn Congress, to be held on November 26-27 at Grand Walkerhill Seoul.

This year's program features outstanding free paper presentations and symposia with distinguished international guests, including Dr. Michael Dujela from the United States, two surgeons from Beijing Jishuitan Hospital in China, and travelling fellows from Japan. We look forward to sharing knowledge, exchanging ideas, and strengthening friendships. Our Annual General Meeting will also be held during the congress.

We appreciate your understanding of this year's Thursday-Friday schedule, particularly our colleagues in private practice. For our first congress at Grand Walkerhill Seoul, we are also pleased to invite you to the Gala Dinner at Aston House on Thursday evening, overlooking the Han River and the Seoul skyline.

Your participation and support will make this congress a rewarding and memorable occasion. I look forward to welcoming you to Seoul.

Ki-Sun Sung, MD, PhD

President, Korean Foot and Ankle Society

REGISTRATION

등록비

구 분	정회원	비회원 전문의	전임의/군의관	전공의/간호사/연구원
사전등록	150,000	250,000	100,000	50,000
현장등록	170,000	300,000	120,000	70,000

11/26일(목) 만찬 참석 등록비 안내 (11/26일, 목요일)

만찬 참석 등록 (사전)

금액: 100,000원 (1인 기준 25만원 상당 코스 요리)

비고: 사전등록 페이지에서 선택 및 결제 가능합니다.

※ 만찬 현장 접수 (12만원) 시, 좌석 한정으로 조기 마감될 수 있는점 양해바랍니다.

사전등록 방법

1) 온라인을 통한 사전등록이 가능하며, 당일 현장등록도 가능합니다.
2) 사전등록 마감일: 2026년 11월 22일 일요일 24시 (이후에는 사전등록 접수 마감됩니다)
3) 대한족부족관절 홈페이지(www.fas.or.kr)로 접속 후 사전등록 접수창을 통해 카드 결제 또는 현금이체가 가능합니다. (신한은행 100-026-607336 예금주: 대한족부족관절학회)
   (사전등록 영수증은 학술대회 종료 후 학회 홈페이지 내에서 출력 가능합니다.)
4) 모든 회원 및 참가자(전임회장 제외)께서는 반드시 본인의 이름과, 핸드폰 번호로 사전등록을 해주십시오.
5) 등록 문의 및 확인: 대한족부족관절학회 사무처 010-2038-0234

평점 부여

대한의사협회 평점

1) 대한의사협회 연수교육 권고, 지침에 따라 정확한 입/퇴실 확인을 위해 QR 코드 출결 시스템을 운영합니다.
2) 학회장 등록처에 준비된 리더기에 명찰의 QR 코드를 반드시 입/퇴실 시 스캔하시면 됩니다.

환불 안내

1) 사전등록 후 마감일 (2026년 11월 22일 일요일 24시) 이전에 취소할 경우, 수수료 20,000원을 제외 하고 환불하여 드립니다.
2) 다만, 마감일 이후에는 환불이 불가함을 양해 부탁드립니다.

08:00-08:30 **Registration**

08:30-09:20 **Session 1. Foot & Ankle Trauma-1 (50min)**

Moderator: **Jae Hoon Ahn / Hyun Woo Park**

1. Radiographic Outcomes of Open Reduction and Kirschner-Wire Fixation Versus Screw or Plate Fixation for Lisfranc Injuries: A Propensity Score-Weighted Comparative Study

University of Ulsan[1], Nanoori Hospital[2] **Woo-Sung Choi**[1], Jae-Hyeon Seo[2], Youngrak Choi[1]

2. Outcomes of a Minimally Invasive W-Plate System for Sanders Type III and IV Intra-Articular Calcaneal Fractures

Dankook University Hospital Jae-Wook Park, **In Heo**, Hyun-Woo Park

3. Radiographic Results of Anterior-to-Posterior Screw Fixation for Posterior Malleolar Fractures Reduced by Ligamentotaxis

Ewha Womans University Seoul Hospital **Yeokgu Hwang**

4. Comparison of Operative Time and Bony Union Between Anterior-to-Posterior and Posterior-to-Anterior Lag Screw Fixation with Lateral Neutralization Plating for Isolated Weber B Fibular Fractures: One-Year Follow-up CT Evaluation

Chung-Ang University **Jung-Won Lim**, Inyong Jeong, Seung Hwan Park

5. Deltoid Ligament Repair does not Improve Radiographic or Clinical Outcomes in Weber Type C Pronation-external Rotation Ankle Fractures: A Randomized Controlled Trial

Inje University **Jun Young Choi**, Oh Jun Yu, Young Ho Jung, Jin Soo Suh

09:20-10:00 **Session 2. Foot & Ankle Trauma-2 (40min)**

Moderator: **Ho Seong Lee / Jun Young Lee**

1. Serial Arthroscopic Evaluation of Syndesmotic Healing after Transfixation Screw Versus TightRope Fixation: Does Early Screw Removal Compromise Syndesmotic Reduction?

Soonchunhyang University[1], Hallym University[2], Inje University[3], CHA University School of Medicine[4]

Eun Myung Kang[1], Sang Hoon Lee[1], Jaeho Cho[2], Sung Hun Won[1] Young Yi[3], Sung Hyun Lee[4], Dong-Il Chun[1]

2. K-Wire Fixation for Syndesmotic Injuries in Ankle Fractures: A Bilateral Axial Weight-Bearing CT Study

Chungnam National University[1], Konyang University[2], Sejong Chungnam National University Hospital[3]

Junyong Song[1], Minjae Sung[1], Sanghyeok Lee[1], Jaehwang Song[2], Gisoo Lee[3], Chan Kang[1]

3. Evaluation of CT-based Criteria for Syndesmotic Malreduction Assessed in Bilateral Uninjured Ankles Chonnam National University **Jong-Eun Kim**, Keun-Bae Lee, Gun-Woo Lee

4. A Study on the Position of Syndesmotic Screws and Suture-Button (TightRope) at the 2cm, 3cm Proximal to the Ankle Joint Line for Distal Tibiofibular Fixation: A Sawbones Model Study
Seoul Medical Center **Ki Chun Kim**, Seung Min Ryu

10:00-10:20 **Coffee Break (20min)**

10:20-10:30 **Opening Ceremony** President of Korean Foot and Ankle Society **Ki-Sun Sung**

10:30-11:20 **Session 3. Miscellaneous-1 (50min)**
Moderator: **Yong Wook Park / Gab Lae Kim**

1. Fourteen-Year Limb Salvage With Repeated Antibiotic-Loaded Bone Cement Exchanges in a Patient with Diabetic Charcot Neuroarthropathy and Chronic Osteomyelitis: A Case Report
Hallym University School of Medicine Gab-Lae Kim, Kyu-Seok Kim, **Jun-Young Jang**

2. Percutaneous Transluminal Angioplasty Reduces Lesion-to-contralateral TcPO2 Asymmetry in Patients with Diabetic Foot Ulcers and Peripheral Arterial Disease
Gyeongsang National University **Seung-Bum Cho**, Jungtae Ahn, Dae-Cheol Nam

3. Seasonal Variation in Intraoperative Culture Pathogens of Diabetic Foot Osteomyelitis
Presbyterian Medical Center **Jinyoung Park**, Jongkil Kim

4. Validation of Infection Control and Immune Response on Polybiguanide (PHMB) Loaded Infection Avoidance Gel Applied to Orthopedic Metal Device Surfaces
Korea University College of Medicine **Ji Hye Choi**, Daun Jeong, Jangsun Hwang, Woo Young Jang

5. MRI-Based Morphologic Patterns of the Peroneus Quartus in a Korean Clinical Cohort: An Anatomical Study with an Illustrative Surgical Case
Hallym University College of Medicine Otgonsaikhan Nomkhondorj, Ye-Chan Choi, **Jaeho Cho**

11:20-12:20 **Session 4. Ankle Ligament Injury (60min)**
Moderator: **In Tak Chu / Hak Jun Kim**

1. Longitudinal Changes in Contralateral Ankle Instability Following Unilateral Surgery in Bilateral Chronic Ankle Instability: A Minimum 5-Year Follow-Up
Yonsei University College of Medicine Dong Woo Shim, Kwang Hwan Park Yeo Kwon Yoon, **Jeonghoon Kim,** Seung Hwan Han, Jin Woo Lee

2. Clinical and CT-Based Outcomes of Anterior and Posterior Syndesmotic Augmentation Using Nonabsorbable Suture Tape for Acute Syndesmotic Instability
Soonchunhyang University[1], Veterans Health Service Medical Center[2]
Woo Jong Kim[1], Eui Dong Yeo[2]

3. Clinical and Radiographic Outcomes According to Fibular Anchor Position after Arthroscopic Modified Broström Procedure
Kyung Hee University **Jeong Hyun Lee**, Dong Uk Suh, Min Gyu Kyung, Bi O Jeong

4. Do Traditional High-Risk Factors Predict Recurrence after Arthroscopic ATFL Repair?
Korea University College of Medicine[1], Yonsei University College of Medicine[2]
Gi Won Choi[1], Dong Woo Shim[2], Kwang Hwan ParK[2]
Jin Woo Lee[2], Hak Jun Kim[1], Ji Hun Park[1]

5. Clinical, Imaging, and Return-to-Play Outcomes after Acute Anterior Talofibular and Calcaneofibular Ligament Repair in Competitive Athletes
Sejong Sports Hospital **Jin-Su Kim**

6. A Novel MRI-Based Classification of Anterior Talofibular Ligament Injuries in Chronic Ankle Instability: Focusing on Intra-Articular Entrapment of the Inferior Fascicle
Yeongnam University **Seong Hyeon Jo**, Jeong Jin Park, Chul Hyun Park

12:20-13:10 **Lunch & Group photo (50min)**

Luncheon Symposium (Daewon / Convatec) Moderator: **Dong Il Chun**

13:10-14:30 **Invited Lecture-1 (80min)** Moderator: **Jin Soo Suh / Seung Hwan Han**

1. The Architecture of Lateral Ankle Instability, When to Repair Subtle Cavus?
Olympia Orthopaedic Associates, USA **Michael Dujela**

2. Cuneonavicular Fusion for the Treatment of PCFD with Unstable Medial Column
Beijing Jishuitan Hospital, China **Liangpeng Lai**

3. The Update of the Embrace Technique for Syndesmosis Injuries
Quingdao University Hospital, China **QuanYu Dong**

14:30-14:50 **Coffee Break (20min)**

14:50-15:40 **Session 5. Osteochondral Lesions of the Talus (50min)**
Moderator: **Jin Wha Chung / Myoung Jin Lee**

1. Open Curettage and Bone Grafting for Very Large Cystic Osteochondral Lesions of the Talus: Clinical, Radiographic, and Second-Look Arthroscopic Outcomes
The Catholic University of Korea **Muhammad Bayu Zohari Hutagalung**, Jiwon Lee, Jae Hoon Ahn

2. Meticulous Arthroscopic Curettage Alone Versus Curettage With Microfracture for Osteochondral Lesions of the Talus
Sungkyunkwan University School of Medicine **Minsung Kwon**, Sang-Jin Lee, Ki-Sun Sung

3. Mid-term Outcomes of Repeat Arthroscopic Bone Marrow Stimulation for Secondary Osteochondral Lesions of the Talus: A Propensity Score–matched Comparative Study
Chonnam National University **Gun-Woo Lee**, Keun-Bae Lee, Jong-Eun Kim

4. Comparison of Clinical Outcomes and Complications after Bone Marrow Aspirate Concentrate and Matrix-Induced Chondrogenesis Versus Autologous Osteochondral Transfer for Large Osteochondral Lesions of the Talus
Yonsei University College of Medicine
Yeo Kwon Yoon, **Donghyun Lee**, Dong Woo Shim, Kwang Hwan Park, Jin Woo Lee, Seung Hwan Han

5. Is a 2cm² Lower Lesion-Size Threshold Justified for Bone Marrow Aspirate Concentrate Treatment of Osteochondral Lesions of the Talus? Reassessing Lesion-Size and Age Criteria for Non-Covered Use in Korea
Yonsei University College of Medicine[1], Hallym University College of Medicine[2], Insurance and Reimbursement Committee of KFAS[3]
Kwang Hwan Park[1,3], Jae Yong Park[2,3]

15:40-16:40 **Symposium. KFAS-JSSF Joint Symposium: Current Concepts and Controversies in Supramalleolar Osteotomy (60min)**
Moderator: **Keun Bae Lee / Kazuya IKOMA**

1. Indications and Limitations of Supramalleolar Osteotomy for Varus Ankle Osteoarthritis: Korean Perspective
Certe Orthopedic Clinic **Hong Geun Jung**

2. Indications and Limitations of Supramalleolar Osteotomy for Varus Ankle Osteoarthritis: Japanese Perspective
Nara Medical University, Japan **Hiroaki Kurokawa**

3. Preoperative Planning, Optimal Correction Targets, and Concomitant Procedures in Supramalleolar Osteotomy: Korean Perspective
Seonam Hospital **Woo Chun Lee**

4. Preoperative Planning, Optimal Correction Targets, and Concomitant Procedures in Supramalleolar Osteotomy: Japanese Perspective
Chikamori Hospital, Japan **Yukinobu Nishii**

16:40 **Gala Dinner**

07:30-08:00 **Registration**

08:00-09:00 **Session 6. Miscellaneous-2 (60min)**

Moderator: **Ki Sun Sung / Jae Yong Park**

1. Effects of Vibrating Footwear on Chronic Plantar Heel Pain: A Pilot Randomized Crossover Trial

Konkuk University1, Seoul National University College of Medicine[2]

Woo Sub Kim[1], Gyu Hwan Lee[2], Dae Hyun Kim[2], Hyun Tae Lee[1], Kyoung Min Lee[2]

2. Clinical Outcomes of Surgical Treatment for Chronic Plantar Fasciitis

Yonsei Gunwoo Hospital **Seo MK**, Chu IT, Lee HJ, Yoo JM, Park EH

3. Does Greater Lateral Column Lengthening Overload the Calcaneocuboid Joint? A Patient-specific Finite Element Analysis of 4–12mm Evans Osteotomy in Flatfoot

Keimyung University[1], Yeungnam University[2] **Jung-Min Lee**[1], Jeong Jin Park[2], Chul Hyun Park[2]

4. Improvement of Hindfoot Alignment after Isolated Lateral Column Lengthening for Flat Foot Deformity

Bumin Hospital Seoul[1], The Catholic University of Korea[2], University of Ulsan[3], Harvard Medical School[4], Ghent University Hospital[5]

Jiyong Ahn[1], Yoochang Kim[2], Youngrak Choi[3], Karina Mirochnik[4], Arne Burssens[5], Soo-Sung Park[3], Ho-Seong Lee[3]

5. Classification Status of Foot and Ankle Eponyms: A Five-Layer Cross-System Audit from ICD-10 to ICD-11

Veterans Health Service Medical Center[1], Presbyterian Medical Center[2], Kosin University[3], Konkuk University[4], Hallym University College of Medicine[5]

Eui Dong Yeo[1], Jongkil Kim[2], Jiyoun Kim[3], Woo Sub Kim[4], Jae Yong Park[5]

6. Survey on the Current Management Status of Private Clinics Specializing in Foot and Ankle Surgery and Awareness of the Policy Environment

Yonsei 100% Hospital[1], Private Clinic Committee KFAS[2], Moon Jeong Seok Orthopedic Clinic[3]

Moses Lee[1], Korean Foot and Ankle Society Private Clinic Committee[2], Jeong Seok Moon[3]

09:00-09:50 **Session 7. Sports Related Injury (50min)**

Moderator: **Heui Chul Gwak / Kyoung Min Lee**

1. Comparison of Early Re-rupture Rates between Absorbable and Nonabsorbable Sutures in Patients with Acute Achilles Tendon Rupture: A Nationwide Cohort of 46,994 Patients

Korea University **Young Hwan Park**, Jeong Ho Son, Hee Soh Yoo, Gi Won Choi, Hak Jun Kim

2. A Retrospective Study of Tendon Healing Patterns after Achilles Tendon Rupture Repair Using Knotless Barbed Sutures
Inje University Su-Young Bae, **Si Hyun Kim**

3. Clinical Outcomes of Mini-open Repair for Acute Achilles Tendon Rupture: A Retrospective Review of 109 Cases
Dong-A University Jiwoong Kim, Myoungjin Lee, **Min Kyun Cho**

4. Surgical Treatment of Deep Infection after the Modified Broström Operation
Chosun University Jun Young Lee, **Jung Min Kook**, Jong jin Moon, Hong ik Choi

5. Long-term Prognosis of Early-stage Medial Osteoarthritis with Chronic Lateral Ankle Instability
Chungbuk National University[1], Daejeon Bon Hospital[2]
Byung-Ki Cho[1], Seung-Myung Choi[2], Sung-Hoo Kim[1], **Eun-Taek Hwang**[1]

09:50-10:10 **Coffee Break (20min)**

10:10-10:30 **President Special Lecture (20min)** Moderator: **Jin Wha Chung**

President Special Lecture
Sungkyunkwan University School of Medicine **Ki-Sun Sung**

10:30-11:30 **Session 8. Ankle Arthritis-1 (60min)**
Moderator: **Hyung Jin Chung / Se Jin Park**

1. Surgical Outcome of Unfixed Controlled Medial Malleolar Breakage for a Balanced Total Ankle Replacement
Sungkyunkwan University School of Medicine Ki-Sun Sung, **Sang-Jin Lee**

2. The Predictive Value of Early Center-of-Pressure Correction on Mid-Term Eccentric Wear and Regional Plantar Pressure Following Mobile-Bearing Total Ankle Replacement (TAR): A 5-to-7-Year Follow-up Study
Ewha Womans University[1], Soonchunhyang University[2], Hallym University College of Medicine[3], Dubalo Orthopedic Hospital[4]
Young Yi[1], Dong-il Chun[2], Jae-Ho Cho[3], Ji-Beom Kim[4]

3. Effect of Concomitant Foot Morphology According to Preoperative Coronal Plane Deformity on Outcomes of Total Ankle Arthroplasty
Kyung Hee University **Dong Uk Suh**, Jeong Hyun Lee, Min Gyu Kyung, Bi O Jeong

4. Association Between Home-Run Screw Centrality on Foot Anteroposterior Radiographs and Early Union after Ankle Arthrodesis
Kyung Hee University **Min Gyu Kyung**, Jeong Hyun Lee, Dong Uk Suh, Bi O Jeong

5. Severe Coronal Deformity Does Not Necessitate Open Ankle Arthrodesis: Comparable Outcomes with Arthroscopic Arthrodesis
Ajou University School of Medicine Young Uk Park, Young Wook Seo, **Jinyoung Jun**

6. Five-Year Gait Adaptation after Ankle Arthrodesis for End-Stage Ankle Osteoarthritis
Seoul National University[1], Kyung Hee University[2] Jahyung Kim[1], Yunho Lee[1], Seongjae Hwang[1], Min Gyu Kyung[2], **Nah Yon Kim**[1], Kyoung Min Lee[1], Dong Yeon Lee[1]

11:30-12:30 **Invited Lecture-2 (60min)** Moderator: **Kyung Tai Lee / Bi O Jeong**

1. Digital Intelligent Surgery for Foot and Ankle Disorders / Navigated Total Ankle Replacement
Beijing Jishuitan Hospital, China **Hui Du**

2. The Future of fibular fracture fixation: A New Paradigm-MIS Retrograde Fibular Nailing
Olympia Orthopaedic Associates, USA **Michael Dujela**

12:30-13:10 **Lunch Time (40min)**

13:10-13:50 **Annual General Meeting (40min)**

13:50-14:50 **Session 9. Ankle Arthritis-2 (60min)**
Moderator: **Kyeong Jin Choi / Kwang Bok Lee**

1. Multidirectional Deformity Correction in Supramalleolar Osteotomy Using Dual-Plate Fixation for Early- to Mid-Stage Ankle Osteoarthritis: Clinical and Radiographic Outcomes
Ajou University School of Medicine
Young Uk Park, **Young Wook Seo**, Jinyoung Jun, Daehyun Han

2. Mid- to Long-term Outcomes of Medial Opening Wedge Supramalleolar Osteotomy for Varus Ankle Osteoarthritis: A Minimum Seven-year Follow-up Study
Inje University Jun Young Choi, Sun Oh Jung, **Ji Yong Yun**, Jin Soo Suh

3. When Do Scanograms and Standing Ankle Radiographs Differ? A Comparative Analysis of Ankle Alignment Measurements
Konyang University[1], Chungbuk National University[2], Chungnam National University[3], Sejong Chungnam National University Hospital[4]
In Uk Yeo[1], Tae Gyun Kim[1], Byung Ki Cho[2], Gi Soo Lee[4], Chan Kang[3], Jae Hwang Song[1]

4. Relationships among Patient-Reported Symptoms, Pain, and Physical Activity in Patients with Ankle Osteoarthritis: A Cross-Sectional Study at a Tertiary Care Center
Seoul National University[1], Konkuk University[2]
Dae Hyun Kim[1], Gyu Hwan Lee[1], Woo Sub Kim[2], Dong Yeon Lee[1], Kyoung Min Lee[1]

5. Heterogeneous Multiplanar Deformity Patterns in Varus Ankle Osteoarthritis with Advanced Talar Tilt: A Weight-Bearing Computed Tomography Analysis

Seoul National University[1], Kyung Hee University[2]
Jahyung Kim[1], Min Gyu Kyung[2], Nah Yon Kim[1], Dong Yeon Lee[1]

6. Preoperative Radiographic Staging of the Tibial Plafond for Patient Selection in Total Talus Replacement: A Retrospective Cohort Study

Inha University **Hee Soo Han**, Seung Hyo Ko, Bomsoo Kim

14:50-16:10 **Invited Lecture-3 (80min)** Moderator: Su Young Bae / Byung-Ki Cho

1. Anterior or Posterior Tibialis Tendon Transfer to the Peroneus Tertius for Equinovarus Deformity — Quingdao University Hospital, China **QuanYu Dong**

2. Correction of Sagittal Deformities of the Ankle and Hindfoot

Beijing Jishuitan Hospital, China **Hui Du**

3. Preliminary Outcomes of Intra-articular Osteotomy in the Treatment of Stage 3b Varus Ankle Arthritis — Beijing Jishuitan Hospital, China **Liangpeng Lai**

16:10-16:30 **Coffee Break (20min)**

16:30-17:40 **Session 10. Hallux Deformities & Disorders (70min)**
Moderator: Ki Won Young / Jeong Seok Moon

1. Modified Oblique Keller Capsular Interposition Arthroplasty for Hallux Rigidus: A Case Series

The Catholic University of Korea **Jiwon Lee**, Muhammad Bayu Zohari Hutagalung, Jae Hoon Ahn

2. Mapping the Safety Zone of the Medial Dorsal Digital Nerve in Minimally Invasive Hallux Valgus Surgery: A Cadaveric Study

Kosin University[1], Yale School of Medicine[2], Yonsei University College of Medicine[3]
Jiyoun Kim[1], Irvin Oh[2], Kwang Hwan Park[3], Hyukjoon Choi[1]

3. Externally Validated Automated Measurement of Hallux Valgus on Pre- and Postoperative Weight-Bearing Radiographs Using a Transformer-Based Model

SNU Seoul Hospital[1], Seoul National University[2], Heung-K Hospital[3], Kyung Hee University[4]
Sang Gyo Seo[1], Donghyuk Kwak[2], Sehun Kim[3], Min Gyu Kyung[4], Dong Yeon Lee[2], Du Hyun Ro[2], Jahyung Kim[2]

4. Radiographic Changes in Hallux Valgus Following Correction of Flexible Progressive Collapsing Foot Deformity
Chungbuk National University[1], University of Ulsan[2]
Sunghoo Kim[1], Byung-Ki Cho[1], Youngrak Choi[2], Ho-seong Lee[2]

5. Occupational Radiation Exposure to Surgeons During Minimally Invasive Surgery for Hallux Valgus: A Prospective Observational Study Using Thermoluminescent Dosimeters
Yonsei University College of Medicine
Heemin Choi, Donghyun Lee, Yeo Kwon Yoon, Dong Woo Shim, Seung Hwan Han, Jin Woo Lee, **Kwang Hwan Park**

6. Mechanical Stability of the First Metatarsus after Hardware Removal Following Radiographic Union in Minimally Invasive Hallux Valgus Surgery
MS Jaegeon Hospital **Ho Dong Na**, Sun Oh You, Jung Rae Kim

7. A Pilot Study of a Novel Screw Design for Early Callus Formation in Minimally Invasive Hallux Valgus Correction
Seoul Boneone Hospital[1], SNU Seoul Hospital[2]
Dongoh Lee[1], Sang Gyo Seo[2], Taebyeong Kang[2], Jeong Hwan Lee[2], Yoon Hyo Choi[2]

17:40-18:20 **Session 11. Korea-Japan Travelling Fellow Presentation & Overseas Training Report (40min)**
Moderator: **Dong Yeon Lee / Gi Won Choi**

1. 2026 KFAS-JSSF Travelling Fellowship - 1 — Kyoto University, Japan **Yoshiharu Shimozono**

2. 2026 KFAS-JSSF Travelling Fellowship - 2 — Miyazaki University, Japan **Takuji Yokoe**

3. Overseas Training Report — Kosin University **Jiyoun Kim**

18:20 **Best Oral Presentation Awards / IFFAS2024 Awards / Closing Ceremony**
Chair of the Scientific Committee **Bi O Jeong**

1. Injury Characteristics and Prognostic Outcomes of Ankle Fracture–Dislocation: The Importance of Posteromedial Extension of Posterior Malleolar Fractures

Konyang University[1], Chungbuk National University[2],
Sejong Chungnam National University Hospital[3], Chungnam National University[4]
Ji Seong Park[1], Byung Ki Cho[2], Gi Soo Lee[3], Chan Kang[4], Jae Hwang Song[1]

2. Gender Differences in Early Functional Recovery after Minimally Invasive Distal Transverse Metatarsal Osteotomy - Akin Osteotomy (MITA) for Hallux Valgus: A Propensity-matched Study of 300 Cases

SNU Seoul Hospital[1], Seoul Boneone Hospital[2], Choi Kyung Jin Orthopaedic Hospital[3]
Taebyeong Kang[1], Jeong Hwan Lee[1], Yoon Hyo Choi[1],
Dongoh Lee[2], Kyung Jin Choi[3], Sang Gyo Seo[1]

3. Functional Rehabilitation After Arthroscopic Ultrasound-Assisted All-Inside Repair Versus Open Modified Broström Operation for Chronic Lateral Ankle Instability

Ajou University School of Medicine Young Uk Park, Young Wook Seo, **Jinyoung Jun**

4. Serum Amyloid A as a Biomarker for Monitoring Treatment Response in Lower-Extremity Cellulitis

Kyung Hee University College of Medicine
Min Gyu Kyung, Jeong Hyun Lee, Dong Uk Suh, Bi O Jeong

5. Ankle Arthrodesis and Staged Soft-Tissue Reconstruction for Equinovarus Deformity With Achilles Tendon Infection and an Extensive Posterior Soft-Tissue Defect: A Case Report

Hallym University School of Medicine Gab-Lae Kim, Kyu-Seok Kim, **Jun-Young Jang**

6. Clinical Outcomes of Multidisciplinary Treatment Without Invasive Procedures in Patients With Subacute Complex Regional Pain Syndrome: A Consecutive Case Series of 11 Patients

Inje University[1], Korea University[2]
Woon Kim[1], Young-Hwan Park[2], Ha-Rim Sung[1], Hak-Jun Kim[2]

---

7. Outcomes after Fourth-Generation Minimally Invasive Hallux Valgus Correction with and without Tourniquet Use: A Retrospective Comparative Study with at Least 2 Years of Follow-Up

Yonsei University College of Medicine
Yeo Kwon Yoon, Dong Woo Shim, Seung Hwan Han, Jin Woo Lee, Kwang Hwan Park

---

8. Outcomes of Minimally Invasive Transverse Distal Metatarsal Osteotomy–Akin Osteotomy(MITA) According to Preoperative Hallux Valgus Severity

SNU Seoul Hospital **Jeong Hwan Lee**, Taebyeong Kang, Yoon Hyo Choi, SangGyo Seo

---

9. Genetic Causes and Ankle Instability in Hypermobile Ehlers–Danlos Syndrome (hEDS): An Integrated Analysis Using Whole-Exome Sequencing and Stress Imaging

Korea Research Institute of Bioscience and Biotechnology (KRIBB)[1], Chungnam National[2], Konyang University[3]
Jae Yoon Kim[1], Ho Yeon Lee[1], Nam shin Kim[1], Gi Soo Lee[2], Chan Kang[2], **Jae Hwang Song**[3]

---

10. Ultrasonographic ATFL Thickness Does Not Predict Functional Outcomes After Acute Lateral Ankle Sprain

Sungkyunkwan University School of Medicine Sang Heun Kim, **Sung Jin Shin**

---

11. Clinical and Radiological Outcomes of Hybrid Reconstruction for Chronic Ankle Instability: A 303-Case Cohort Study

Sejong Sports Hospital **Woojin Shin**, Jinsu Kim

12. The Impact of Chronic Severe Preoperative Local Infection on Postoperative Complications and Recurrence Following Winograd Procedure for Ingrown Toenail of the Great Toes: A Retrospective Cohort Study

Inje University **Ji Young Yun**, Jin Soo Suh, Jun Young Choi

13. Therapeutic Efficacy of a Nanomimetic Wound Patch for Cutaneous Wound Healing: An In Vivo Study in a Rat Full-Thickness Skin Defect Model

Chonnam National University[1],
Department of Convergence Biosystems Engineering, Chonnam National University[2]
Jong-Eun Kim[1], Jeong-Eun Han[1], Jangho Kim[2], **Gun-Woo Lee**[1]

14. Relationship of Lateral Malleolar Fracture Patterns to Posterior Malleolar Fracture Morphology in Supination-external Rotation Ankle Fractures

Chonnam National University **Jong-Eun Kim**, Keun-Bae Lee, Gun-Woo Lee

15. Comparison of Lateral Malleolar Osteophyte Size and Talofibular Distance in Takakura Stage 3a versus Stage 3b Ankle Osteoarthritis

Konkuk University[1], Seoul National University[2]
Woo Sub Kim[1], Gyu Hwan Lee[2], Dae Hyun Kim[2], Gyu Sung Lee[1], Kyoung Min Lee[2]

16. Feasibility of the Intramedullary MITO System for Minimally Invasive Hallux Valgus Correction: A Amputated foot Cadaveric Study

Ewha Womans University[1], Soonchunhyang University[2], Hallym University[3]
Young Yi[1], Dong-il Chun[2], Gab-Lae Kim[3]

17. Early Debridement, Antibiotics, and Implant Retention (DAIR) Strategy for Acute Fracture-Related Infection after Foot and Ankle Fractures: A Report of Six Cases

Chung-Ang University **Jung-Won Lim**, Inyong Jeong, Seung Hwan Park

18. Effect of Preoperative Coronal Plane Deformity on Radiographic Outcomes and Revision after Total Ankle Arthroplasty

Kyung Hee University **Dong Uk Suh**, Jeong Hyun Lee, Min Gyu Kyung, Bi O Jeong

19. Smartphone App-Based Versus Handout-Based Home Exercise Programs for Heel Pain Syndrome: A Prospective Randomized Study

Korea University College of Medicine[1], Yonsei University College of Medicine[2]
Ji Hun Park[1], Dong Woo Shim[2], Kwang Hwan Park[2], Jin Woo Lee[2], Hak Jun Kim[1], Yeong Jeon[1], Gi Won Choi[1]

20. Arthroscopic Microfracture and Osteophyte Resection Versus Conservative Management for Takakura Stage II Medial Ankle Osteoarthritis with Impingement in Older Patients: A Propensity Score-matched Analysis

Inje University **Jun Young Choi**, Jin Soo Suh, Dong Seok Kim, Yun Beom Lee

21. A Preliminary Study of 3D-Printed Pure Titanium Plates with LOIS Coating for Ankle Fractures

Korea University **Ji Hye Choi**, Young Hwan Park, Gi Won Choi, Woo Young Jang

22. Failure of Ankle Arthrodesis Using a Structural Fibular Graft : A Case Report

Busan Bumin Hospital **Eun Sang Cho**, Yeong Hun Kang

23. Changes in Noninvasive Perfusion Parameters After Endovascular Revascularization and Their Association with 12-Week Wound Healing in Patients with Diabetic Foot

Soonchunhyang University[1], Hallym University[2], Inje University[3], CHA University[4]
Jinseong Kim[1], Gun-Il Seo[1], Jaeho Cho[2], Sung Hun Won[1], Young Yi[3], Sung Hyun Lee[4], Eun Myeong Kang[1], Dong-Il Chun[1]

24. The Role of Receptor Activator of Nuclear Factor-B Ligand/Osteoprotegerin Ratio in Synovial Fluid as a Potential Marker for Periprosthetic Osteolysis Following Total Ankle Arthroplasty

Chonnam National University
Gun-Woo Lee, Ji-Eun Song, Jeong-Eun Han, Nack-Sung Kim, Keun-Bae Lee

25. The Effect of Smoking on the Outcomes of Arthroscopic Microfracture for Osteochondral Lesions of the Talus

Chonnam National University **Gun-Woo Lee**, Min-Su Lee, Jong-Eun Kim, Keun-Bae Lee
